Gombrowicz is a fantasist, but his work is clearly grounded both in reality and autobiography. Besides the seven stories from his first book, Bacacay collects two free-standing stories from his novel Ferdydurke, and three previously published but uncollected stories. It makes for a good introduction to the author, and some fine -- if often unusual -- entertainment.

Witold Gombrowicz, Bacacay (transl. Bill Johnston. Archipelago, 2006) I am a very late comer to Gombrowicz – through a casual remark by Tokarczuk in an interview to FAZ, saying that in her view he merited a Nobel. He did not – his writing is too self-referential, bordering on narcissism. But a great writer, nonetheless, he is.

In this bitterly funny novel by the renowned Polish author Witold Gombrowicz, a writer finds himself tossed into a chaotic world of schoolboys by a diabolical professor who wishes to reduce him to childishness. Originally published in Poland in 1937, Ferdydurke became an instant literary sensation and catapulted the young author to fame. Deemed scandalous and subversive by Nazis, Stalinists, and the Polish Communist regime in turn, the novel (as well as all of Gombrowicz’s other works) was officially banned in Poland for decades. It has nonetheless remained one of the most influential works of twentieth-century European literature. Ferdydurke is translated here directly from the Polish for the first time. Danuta Borchartd deftly captures Gombrowicz’s playful and idiosyncratic style, and she allows English speakers to experience fully the masterpiece of a writer whom Milan Kundera describes as “one of the great novelists of our century.”

"Gombrowicz is one of the most original and gifted writers of the twentieth century: he belongs at the very summit, at the side of his kindred spirits, Kafka and Celine." The Washington Post

A landmark autobiography written by a Polish expatriate living in Argentina is presented in a single-volume edition, now with previously unpublished pages restored. Original.

In the pre-World War II period--an era marked by the crumbling aristocracy-two young people searching for their identities become involved in the ancient struggle between good and evil

George Sand was the most famous, and the most scandalous, woman in nineteenth-century France. As a writer, she was enormously prolific: she wrote more than ninety novels, thirty-five plays, and thousands of pages of autobiography. She inspired writers as diverse as Flaubert and Proust but is often remembered for her love affairs with such figures as Musset and Chopin. Her affair with Chopin is the most notorious: their nine-year relationship ended in 1847 when Sand began to suspect that the composer had fallen in love with her daughter, Solange. Drawing on archival sources, much of it neglected by Sand’s previous biographers, Elizabeth Harlan examines the intertwined issues of maternity and identity that haunt Sand’s writing and defined her life. Why was Sand’s relationship with her daughter so fraught? Why was a woman so famous for her personal and literary audacity ultimately so conflicted about women’s liberation? In an effort to solve the riddle of Sand’s identity, Harlan examines a latticework of lives that include Solange, Sand’s mother and grandmother, and Sand’s own protagonists, whose stories amplify her own.

Here are two major works by the famed Polish novelist and dramatist Witold Gombrowicz. The first, Cosmos, a metaphysical thriller, revolves around an absurd investigation. It is set in provincial Poland and narrated by a seedy, pathetic, and witty student, who is charming and appalling by turns, and whose voice is dense with the richly palpable description that characterizes Gombrowicz’s writing. The second, Pornografia, explores the sinister effect the young can have on the old. To serve their own secret eroticism, two aging intellectuals encourage a young couple to commit murder. Although the adolescents are the weapons used to commit the crime, the four become conspirators before the deed is done.

A “creatively captivating and intellectually challenging” existential mystery from the great Polish author—“sly, funny, and . . . lovingly translated” (The New York Times). Winner of the 1967 International Prize for Literature Milan Kundera called Witold Gombrowicz “one of the great novelists of our century.” Now his most famous novel, Cosmos, is available in a critically acclaimed translation by the award-winning translator Danuta Borchartd. Cosmos is a metaphysical noir thriller narrated by Witold, a seedy, pathetic, and witty student, who is charming and appalling by turns. In need of a quiet place to study, Witold and his melancholy friend Fuks head to a boarding house in the mountains. Along the way, they discover a dead bird hanging from a string. Is this a strange but meaningless occurrence or is it the first clue to a sinister mystery? As the young men become embroiled in the Chekhovian travails of the family that runs the boarding house, Grombrowicz creates a gripping narrative where the reader questions who is sane and who is safe. “Probably the most important 20th-century novelist most Western readers have never heard of.” —Benjamin Paloff, Words Without Borders

Hypochondria, insomnia, restlessness, and yearning are the lame muses of these brief pages. I would have liked to call them Extravaganzas . . . because many of them wander about in a strange outside that has no inside, like drifting splinters. . . . Alien to any orbit, I have the impression they navigate in familiar spaces whose geometry nevertheless remains a mystery; let’s say domestic thickets: the interstitial zones of our daily having to be, or bumps on the surface of existence . . . In them, in the form of quasi-stories, are the murmurings and mutterings that have accompanied and still accompany me: outbursts, moods, little ecstasies, real or presumed emotions, grudges, and regrets. —Antonio Tabucchi on The Flying Creatures of Fra Angelico From the Trade Paperback edition.
