The idea arose after dealing with the difficulties and loss of time in preparing for certain CNC jobs. Sometimes I spent more time preparing for the CNC than the work itself. With this manual router, you can make holes or mill very fast. A universal 43mm collet makes it very versatile and you can change the milling tool to drill very fast.

CNC Routers are the CNC machines of choice for woodworkers, and they make an amazing addition to any woodworking shop. A typical DIY CNC Router has fairly loose tolerances compared to a milling machine or lathe, but is capable of much tighter tolerances than most other woodworking. For example, fine inlay work becomes possible.
