The primary decoder when linking 3 together MUST be a Dstv Explora. We recommend the use of a Dstv Accredited Installer for all XtraView installations. They will assist with the physical linking of your decoders. To ensure correct billing, you will also need to contact us to link the decoders on your account.

XtraView - Dstv  
Dstv Extra view installation diagram. The picture above shows the Dstv extra view connection diagram for a smart LNB. Each decoder needs to receive good Dstv signal strength and quality for extra view set up to work. First, connect the coaxial cable of each decoder to the smart LNB.

Dstv extra view explained - definition, cost, setup & problems  
In an XtraView installation the TV eye option in the TV Installation (SD PVR) menu must be active (On) for the decoder to receive a heartbeat signal. • TV eye reception on current decoders is always on and it cannot be disabled. On these decoders, the TV eye setting only serves to power the TV eye (or an external amplifier).
