behaviors can be developed, and character strengthened. Based on research involving over 300 senior leaders from different industries, sectors and countries, Crossan, Seijts, and Gandz developed a model for leadership character that focuses on eleven dimensions. Next, the book focuses on each dimension of leadership character in turn, exploring its elements and the ways in which it can be applied in a business setting. The book concludes with a summary of the key insights, an exploration of the interactions between the character dimensions, and a call to the reader to reflect on how to develop one ' s own and others ' leadership character.
