The Pearson Science Second Edition Activity Book is a write-in resource designed to develop and consolidate students' knowledge and understanding of science by providing a variety of activities and questions to apply skills, reinforce learning outcomes and extend thinking. Updated with explicit differentiation and improved learner accessibility, it provides a wide variety of activities to reinforce, extend and enrich learning initiated through the student book.

The Pearson Science activity book for Year 9 is a write-in resource designed to develop and consolidate students' knowledge and understanding of science by providing a variety of activities and questions to reinforce learning outcomes. It caters for a variety of learning styles and will reinforce, extend and enrich learning initiated through the student book.

Interactive Science Activity Workbooks
Homeschool Activities Workbook includes:
· Activities Workbook
About the Program
Interactive Science Activity Workbooks develop the skills necessary for children to truly understand science concepts with:
· Fun, educational activities for kids
· Opportunities for kids to create their own experiments
· Easy, step-by-step instructions for kids to complete experiments at home
Key Points/Program Differentiators
· Customized for at-home use
· Individual attention
· Uses easy-to-find materials
· Visually engaging and fun to use
Program Overview
The Interactive Science Activities workbooks are designed for the home environment, and modified from the lengthy lab manuals used in schools. They are custom designed at-home activities for students and parents to use on their own or with the Interactive Science grade-level bundles. The Pearson at Home Interactive Science Activities workbooks provide children with a student-centered approach to scientific discovery. Each hands-on activity presents a child with a challenging question that can be investigated and explored independently or with parent guidance. As part of the directed inquiry process, the child will answer this question by exploring the resources, following the outlined procedures of each activity, collecting data, and drawing conclusions. In some instances, parents might need to help children with certain parts of the activity. Following the directed inquiry, the child will be given an opportunity to expand and demonstrate scientific reasoning by modifying the investigation and designing his or her own experiments to illustrate the concept. Utilizing these activities will encourage every child to think like a scientist and encourage him or her to be inquisitive. This curriculum has been modified specifically for homeschool families. At times, there may be references to print or digital components that are not included within the homeschool bundle. This will not hinder your child's successful completion of the course.

Pearson Science New South Wales 8 EAL/D Activity Book is unique, as Pearson Science New South Wales the only series with an EAL/D (English as an Additional Language or Dialect) Activity Book. The extra support in the EAL/D Activity Books has been written by specialist EAL/D teachers to support learner diversity in the classroom. The EAL/D Activity Book can be used instead of, or in addition to, the standard Activity Book. The extra support includes: language builder support for each chapter, simplified questions, key terms defined using text and pictorial explanations, as well as scaffolds and hints, to build confidence and sense of completion for tasks. The Pearson Science New South Wales series will not only save you time in implementing the New South Wales Syllabus for the Australian Curriculum, but it's the only series that really engages your students. The series includes content and activities presented within the context of the three New South Wales Syllabus strands: Knowledge and Understanding, Working Scientifically and Learning Across the Curriculum. Content identified as 'Additional' in the New South Wales syllabus has been clearly differentiated from core content and is carefully placed in the flow of content.

Recommended for primary and middle school students, Universal Science is a series of eight books that adheres to the National Curriculum Framework (2005). The books have been designed in accordance with the latest guidelines laid down by the National Council of Educational Research and Training. The series is based on extensive feedback received from teachers and education consultants experienced in teaching and interacting with students in this age group. All the books present concepts and provide exercises with the view to nurturing scientific temperament in young learners. The well-structured chapters, interspersed with interesting information and questions make learning almost effortless. Together with the activities that instill the spirit of experimentation, the detailed coverage of topics and the variety of exercises lend the textbooks the right balance between the theoretical and practical aspects of Science.

PEARSON SCIENCE

PEARSON SCIENCE covers the three strands of Science Inquiry Skills, Science as a Human Endeavour and Science Understanding with both interactive multimedia and books to engage students and teachers.

Eco! Senior is a new all-in-one resource that's equipped to meet the needs of senior students in their final years of studies. It offers a wealth of authentic viewing, reading and listening, and supportive speaking and writing opportunities, challenging students adequately. This product includes a copy of Eco! Senior Student Book and a code that provides access to Eco! Senior eBook. Reader+ is the home of your eBooks. Looking for further information about Eco!. Visit the Eco! series page for the latest series information, download sample pages and request an inspection copy.

The Pearson Science New South Wales 8 Activity Book reinforces, extends and enriches learning initiated through the student book. Developed from the ground up with scientific literacy and accessibility at its core, the write-in book offers a variety of activities, learning styles and questions that are used to reinforce learning outcomes, including: clear labelling to indicate which New South Wales Syllabus areas each worksheet is covering, and a literacy review for each chapter to help students learn key terms. The Activity Book can be used for independent student work, independent classroom work, or as a complete homework program. The Pearson Science New South Wales series will not only save you time in implementing the New South Wales Syllabus for the Australian Curriculum, but it's the only series that really engages your students. The series includes content and activities presented within the context of the three New South Wales Syllabus strands: Knowledge and Understanding, Working Scientifically and Learning Across the Curriculum. Content identified as 'Additional' in the New South Wales syllabus has been clearly differentiated from core content and is carefully placed in the flow of content.

Pearson Science New South Wales 8 Teacher Companion saves you time in implementing the new AC for NSW syllabus. We have done the work for the Year 7-10 New South Wales teachers by comprehensively supporting you in the Teacher Companion. Help cater for a diversity of learners with hundreds of teaching and learning strategies, as well as extension activities and support for practical activities. These learning strategies include support for student-designed investigations, additional varied skill level activities, as well as learning strategies that specifically target Learning Across the Curriculum areas, such as literacy and numeracy support. The Pearson Science NSW series will not only save you time in implementing the NSW Syllabus for the Australian Curriculum, but it's the only series that really engages your students. The series includes content and activities presented within the context of the three NSW Syllabus strands: Knowledge and Understanding, Working Scientifically and Learning Across the Curriculum. Content identified as 'Additional' in the NSW syllabus has been clearly differentiated from core content and is carefully placed in the flow of content.
