"A truly extraordinary saga . . . The characterizations are consistently superb, and [Hobb] animates everything with love for and knowledge of the sea."–Booklist As Bingtown slides toward disaster, clan matriarch Ronica Vestrit, branded a traitor, searches for a way to bring the city's inhabitants together against a momentous threat. Meanwhile, Althea Vestrit, unaware of what has befallen Bingtown and her family, continues her perilous quest to track down and recover her liveship, the Vivacia, from the ruthless pirate Kennit. Bold though it is, Althea's scheme may be in vain. For her beloved Vivacia will face the most terrible confrontation of all as the secret of the liveships is revealed. It is a truth so shattering, it may destroy the Vivacia and all who love her, including Althea's nephew, whose life already hangs in the balance. Plague has ravaged the prestigious King's Cavalla of Gernia, decimating the ranks of both cadets and instructors. Yet Nevare Burvelle has made an astonishingly robust recovery, defeating his sworn nemesis while in the throes of the disease and freeing himself—he believes—from the Speck magic that infected him. And now he is journeying home to Widevale, anticipating a tender reunion with his beautiful fiancée, Carsina, and a bright future as a commissioned officer. But there is no haven in the bosom of his kinfolk, for his nights are haunted by grim visions of treachery—and his days are tormented by a strange side-effect of the plague that shames his family and repulses the lady of his heart. And as the still-potent magic in his blood roars to life, Nevare realizes a terrible truth: that the enemy who seeks to destroy everything he loves dwells perhaps not without but within him.

"An enthralling conclusion to this superb trilogy, displaying an exceptional combination of originality, magic, adventure, character, and drama."—Kirkus Reviews (starred review) King Shrewd is dead at the hands of his son Regal. As is Fitz—or so his enemies and friends believe. But with the help of his allies and his beast magic, he emerges from the grave, deeply scarred in body and soul. The kingdom also teeters toward ruin: Regal has plundered and abandoned the capital, while the rightful heir, Prince Verity, is lost to his mad quest—perhaps to death. Only Verity's return—or the heir his princess carries—can save the Six Duchies. But Fitz will not wait. Driven by loss and bitter memories, he undertakes a quest: to kill Regal. The journey casts him into deep waters, as he discovers wild currents of magic within him—currents that will either drown him or make him something more than he was. Praise for Robin Hobb and Assassin's Quest "Fantasy as it ought to be written . . . Robin Hobb's books are diamonds in a sea of zircons."—George R. R. Martin "Superbly written, wholly satisfying, unforgettable: better than any fantasy trilogy in print—including mine!"—Melanie Rawn

Now in one volume--in two bestselling sequels to to Anne McCaffrey's "The Ship Who Sang," two physically impaired young girls become "brains" controlling their own starships.

Nevare Burvelle is the second son of a second son, destined from birth to carry a sword. The wealthy young noble will follow his father—newly made a lord by the King of Gernia—into the cavalry, training in the military arts at the elite King's Cavella Academy in the capital city of Old Thares. Bright

and well-educated, an excellent horseman with an advantageous engagement, Nevare's future appears golden. But as his Academy instruction progresses, Nevare begins to realize that the road before him is far from straight. The old aristocracy looks down on him as the son of a "new noble" and, unprepared for the political and social maneuvering of the deeply competitive school and city, the young man finds himself entangled in a web of injustice, discrimination, and foul play. In addition, he is disquieted by his unconventional girl-cousin Epiny—who challenges his heretofore unwavering world view—and by the bizarre dreams that haunt his nights. For twenty years the King's cavalry has pushed across the grasslands, subduing and settling its nomads and claiming the territory in Gernia's name. Now they have driven as far as the Barrier Mountains, home to the Speck people, a quiet, forest-dwelling folk who retain the last vestiges of magic in a world that is rapidly becoming modernized. From childhood Nevare has been taught that the Specks are a primitive people to be pitied for their backward ways—and feared for their indigenous diseases, including the deadly Speck plague, which has ravaged the frontier towns and military outposts. The Dark Evening brings the carnival to Old Thares, and with it an unknown magic, and the first Specks Nevare has ever seen . . .
